

Request quote pricing, for work on gravel roadways.
Garden Grove SE, Georgia Cir SE, 127th St SE

The Becker Township Board is requesting quotes to complete the following work:
Roads

- Garden Grove Road from CR 73 to Peggy Place
- Georgia Circle from Garden Grove to the Cul-de-sac (See Location Map)
- 127th St SE from 153rd Ave SE to City/Town Line

The work shall be completed between May 15th and August 10th. The work will consist of applying a penetrating asphalt emulsion prime coating, meeting **MnDOT Specification 2356** attached - at rate outlined below, over a prepared gravel surface.

Once the prime has been placed and cured, to carry the chip construction equipment, without pick, during the chip seal operation, the chip seal operation shall take place, according to **MnDOT specification 2356**, attached - as modified for this project. Aggregate size for chip seal shall be clean FA-3 granite. Emulsion shall be CRS-2p, under **MnDOT specs 3127**.

All swept - surplus aggregate to be picked up and delivered to Becker Township.

The Becker Township Board reserves the right to accept or reject quotes.

The following are estimated quantities, which may need to be adjusted in field. Adjustments must be pre-approved, by township engineer, before application.

Quantities:

Emulsion CRS-2p for chip seal 0.35 sq. yd.	4,826 gallons.
Square yards of Clean chip seal FA-3 granite	13,787 sq yds
Css-1h modified fog seal 0.10 sq. yd.	1,379 gallons
Surface Preparation	13,787 sq yds

The Contractor must give three (3) days notice before starting work. The Contractor shall prepare the driving surface to ensure smooth compacted surface. Work must be carried out in a manner to insure a final smooth driving surface. Any delay caused by contractor after the shaping has been completed will require contractor to re-shape and compact roadway to Township Board representative's satisfaction (Township Engineer).
